# MARKET IS OVERSOLD

Condition Creates Strength in Past Week.

### AMALGAMATED REMAINS FIRM

Copper Stock Maintains Relatively High Price in Face of Adverse Condition - Steel Shares Widely Distributed Among Small Investors-Strike of Miners Doubted.

New York, March 21.-It may be con seded that the strength of the stock market last week was due in considerable part to its eversold condition.

There is always a tendency for specu the "health officers" are putting into the time that bids to be free from the ob- lative commitments for the decline to increase in a dull market, such as has pre vailed for so many weeks. The time finally comes when a stock market in which these tendencies have been allowed

A remark commonly heard in Wall to be present a great scarcity of stocks; and it is patent, to every clear-headed observer that the quantity of stocks removed from the field of speculative Under the circumstances the most fa-trading through purchases by investors vorable time for the next inauguration on the last to years is larger than is trading through purchases by investors ommonly understood.

in the copper trade can only be explained upon the supposition that the floating supply of these stocks in the financial

pure. We have Dr. Harvey W. Wiley to Dana, and Ripley—who were all but contemporaneous with Barry.

Dr. Benjamin Rush, American physician horn December, 1786, died at Philadelphia, April 19, 1812. Dr. Rush was active in the pre-Revolutionary movements, and as a member of the Provincial Conference of 176 moved the resolution declaring the expediency of a declaration of independence of which he was a signer. He was suggeon in the Pennsylvania navy, 1735-76, and in 1777 was appointed surgeon general. Dr. Rush, who was contemporary with Barry, asked the privilege of writing the epitianh of Commonor Barry, which was inscribed upon the original tombstone placed over the grave in the venerable, St. Mary's Catholic Church yard, at Philadelphia, adelphia, the following being a true copy:

Let the patriot, the soldier, and the Christian who visit these manisons of the proprietary medicinal remedies.

Dr. Rush was decided that the preparation of foods and drug products does not inscribed upon meeting low-grade company with the workingman—a carpenter—file to see it in that light, and would be expediency of a declaration of independence of which he was a signer. He was signer. He was suggeon in the Pennsylvania navy, 1735-76, and in 1777 was appointed at the most rise of the subject of thank for this triumph of honesty over that the high tariff is a great benefit to the laboring people if the excellence of products of labor.

Lit is a matter for congratulation that the obligation of the workingman—a carpenter—file to see it in that light, and would be producted that the high tariff in light to be from the laboring people if the excellence of products of labor.

Lit is a matter for congratulation that the high tariff is a great benefit to the laboring people if the excellence of products of labor.

Lit is a matter for congratulation that the high tariff in light to obtain the laboring people if the courts have decided that the law as their business of seeling labor.

Lit is a matter for congratulation that the business of se Running Castle Garden or Ellis Island as a port of entry, the government is offering free land as an inducement for immigrants—free-trade labor—to come smaller investors, but that their intrinsic liten.

So. 328. Wellington vs. Baltimore and Ohio Railroad Company. Attorneys, Lambert & Yeatman—G. E. Hamilton.

No. 363. Hyde. administrator, vs. Southern Rail-way Company. Attorneys, H. H. Glassie and F. D. Blackistone—Hamilton, Colbert, Yerkes & Hamilton. Why is the high tariff not applied to penditures made upon the improvement value has been vastly enhanced by exmmigration?

The old chestnut that labor so import
of the property represented by money ed scatters all over the land, improving it taken out of the earnings and uncharged

The annual report, published last week of the United States Steel Corporation As the high tariff is to shut out for- for the fiscal year ended December 31, eign products from the home market, it affords protection to the home manufaction and the home market, it affords products from the home market, it affords products from the home market, it affords products from the home manufaction and the home turer and enables him to exact a higher results of last year's trade depression, but Hopevell-price for his products. The working people thus have on one laid out since the formation of the Steel hand to pay an increased price for all Corporation in the work of replacement the necessaries of life or anything they and new construction. This means that may purchase, while on the other they a sum of money equivalent to \$68 for have to compete with cheap, or freetrade labor, from foreign countries.

And to sum up, as the lawyer says:
The workingman pays the high tariff price for his goods, and competes with might have been at the start in the capture of the limited States Steel Corrections.

Tariff Bill Is Studied. Of positive financial developments last week the message to Congress of Presi- gerous weapon; recognizance \$300 take plied by the government with free-trade, or cheap, labor to produce those goods. Therefore, the present system of high tariff on goods and free trade in labor gives the manufacturer a double benefit, and does the workingman a double for From now on the tariff will no doubt seriously and directly engage financial attention, but no one expects that any than those originally suggested, and that
